

# THE OTHER SIDE

Key - C BPM - 68 4/4

Hollis Moore

## VERSE 1

When I'm faced with these mountains in between  
The shadows where I'm hidden and the place I'm called to be  
There's a cross that paved the way ahead  
Where death thought it had won but was overcome instead

## CHORUS 1

God I know Your love will always carry me  
To the other side of my victory  
And I know this hope, it keeps me moving on  
To the other side of the promise yet to come

## VERSE 2

When it seems like this wasteland's all I see  
I'm looking for harvest while in pain I sow my seed  
There is a grave that the Son left behind  
Turning beauty from ashes and dry bones into life

## BRIDGE

My battle's won, my breakthrough is coming  
I know You see me through, I know You see me through

## CHORUS 2

God I know Your love will always carry me

To the other side of my victory

And I know this hope, it keeps me moving on

To the other side of the promise yet to come

## ENDING

My battle's won, my breakthrough is coming

I know You see me through, just like You always do
